What is a breakthrough session?

A Breakthrough session is extreme transformation on every level in a very short space of time,....Yet when time is infinite – this is all we need!

Why is a Breakthrough session for you?

Have patterns that are repeating time after time in your life?

Is there anything in your life that is no longer serving you?

If you could be do or have anything what would it be? Is there something that you are not yet fulfilling that you feel like you should?

When you experience a Breakthrough session what is it like, what does it involve?

During a Breakthrough session following your consultation, the session begins with finding out what the key components are between you and the problem. There is always a keystone a single element which rests in a hierarchy above many smaller less significant problems, decisions and beliefs.

The key- stone is what when made, set the whole process in motion. What a Breakthrough session does, is to reveal this, enabling you to learn from it and evolve beyond it, to transform. Like Dominoes once the keystone is removed the whole problem disseminates. Following with Time Line Therapy™ to release the negative emotions and limiting decisions Which, fed the problem and ensure that the root has been thoroughly “cleansed”.

Much like the dentist! Now you are ready to create the life that you want, using techniques from NLP ensuring you have the strategies, and emotional resource there in place.

Hypnosis where necessary to ensure the your breakthrough affects lasting change.

Assistance from the world of magic and Metaphysics – which is most suitable to your evolution and will maximize your potential, and give you the greatest return on your energetic investment.

Then CYF™ coaching to ensure you have a full long range plan and map to lead you forward towards what it is that you want to do, what you want to have, and when you are who you want to be, you know then that you can.

How does it work?

Our previous clients reported massive transformation following a Breakthrough session. Its like peoples minds are programmed in a way through their experiences, values, beliefs and other layers inside, which act as either on of switches.

Often something's can't actually be processed because of a block or a key stone Component, which exists in their neurology that is hindering this course of thought or action in their neural network. Like a block or a black spot which whether they are consciously aware of it or not is inhibiting the revelation of their true magnificence, stopping their body or mind working in the way that it was originally designed – as perfection. What a Breakthrough session does in realigns the neural pathways with, literally Breaks through any of the components standing between them and what they want. Whether regards health healing, performance, body image, relationship problems, finance – career – you name it, the process is effective for rapid transformation in every.
